PROFESSIONAL SUMMARY

Strategic **IT Systems Officer, Solutions Developer, and Project Leader** with 8+ years of cross-functional experience directing public-sector GovTech modernization, enterprise logistics software, and **AI workflow automations**. Currently serving as **Penata Kelola Sistem dan Teknologi Informasi** at the Ministry of Manpower of the Republic of Indonesia (Kemnaker), pioneering end-to-end process digitalization using **n8n, AI Agent architectures, and REST API pipelines**. Proven track record successfully leading 10+ national-scale enterprise tender deliveries, managing distributed agile teams, and formulating rigorous technical SOPs, data governance frameworks, and cybersecurity standards.

CORE TECHNICAL COMPETENCIES

Automation & AI Workflows	n8n (Self-Hosted & Cloud Pipelines), Multi-Agent Orchestration (Google ADK), Generative AI & LLM Integration, Webhooks, Python Scripting
Systems Governance & GovTech	GovTech Information Systems, National Employment Expansion Platforms, Data Governance, Public-Sector Cybersecurity, SOP Authoring
Project & Tender Leadership	IT Project Management (Agile, Scrum, Jira, Trello), 10+ National Tender Proposals & PoC Delivery, Vendor & Hardware Management
Software & Database Systems	PostgreSQL, MySQL, Prisma ORM, Next.js 16, TypeScript, RESTful API Architecture, Linux VPS, Docker
Enterprise Logistics & Hardware	Warehouse Management Systems (WMS), RFID (HF/UHF) Infrastructure, Barcode Solutions, Asset Tracking & Audit Trails

PROFESSIONAL EXPERIENCE

Penata Kelola Sistem dan Teknologi Informasi (IT Systems Officer) • Kementerian Ketenagakerjaan RI (Kemnaker) May 2025 – Present

South Jakarta, Indonesia • Directorate of Binapenta & PKK – Subbagian Tata Usaha

- Direct internal information systems governance and technology infrastructure supporting strategic national employment expansion initiatives.
- Pioneered enterprise workflow automation pipelines utilizing n8n and REST APIs, eliminating multi-directorate data tracking delays and communication bottlenecks.
- Authored comprehensive digital system Standard Operating Procedures (SOPs), technical architectures, and data security governance frameworks.
- Spearheaded automated cross-platform data aggregation feeds and real-time visualization dashboards for executive decision-makers.

Remote Project Manager (Freelance / Contract) • PT Wahana Datarindo Sempurna June 2025 – Nov 2025

South Jakarta, Indonesia (Remote)

- Led end-to-end execution of enterprise WMS and hardware-integrated software projects, maintaining 100% on-time milestone delivery.
- Served as chief technical liaison aligning corporate C-level stakeholders, distributed software engineering squads, and international hardware vendors.
- Enforced agile sprint planning, scope management, and risk mitigation using Jira and Trello across distributed remote teams.

Head of Software Department • PT Wahana Datarindo Sempurna June 2023 – June 2025

South Jakarta, Indonesia

- Steered the entire software division from client discovery, presales architecture, and Proof-of-Concept (PoC) builds to commercial rollout and SLA maintenance.
- Successfully spearheaded technical architecture and administrative proposals for 10+ national-scale tenders in RFID asset tracking and supply chain logistics.
- Built end-to-end hardware-software interoperability standards bridging industrial RFID/Barcode readers with relational databases and custom client suites.

- Architected and implemented enterprise mobile applications for courier dispatch, digital wallet transactions, and nationwide package tracking.
- Ensured rigorous transactional security and cryptographic token verification for courier financial modules.

KEY FEATURED PROJECTS

GovTech Process Digitization & n8n Automation n8n • PostgreSQL • REST APIs • Python • Multi-Service Webhooks • GovTech Pipeline • GovTech & Workflow Automation

Constructed automated data validation and report aggregation pipelines eliminating manual paperwork across ministry directorates. Synchronized disparate database silos with zero data loss.

National Enterprise WMS & RFID Asset Tracking Deployment RFID HF/UHF • Android Kotlin • Room DB • PostgreSQL • MVVM • Hardware SDKs • Enterprise Systems & Logistics

Delivered an enterprise-grade tracking and warehouse management solution deployed across 10+ major national tender projects. Automated inventory reconciliation and real-time asset visibility.

Cloud Operations & Multi-Directorate Dashboard Next.js 16 • TypeScript • React 19 • Prisma ORM • PostgreSQL • CDN Caching • Data Platform & Full-Stack Web

Designed a high-throughput management dashboard for operational data monitoring, featuring type-safe API actions, sub-second query performance, and role-based security.

EDUCATION

- Bachelor of Informatics Engineering (S.Kom)**
STMIK Nusa Mandiri, Jakarta
2017 – 2019
- Associate of Computer Engineering (A.Md.Kom)**
Universitas Bina Sarana Informatika (BSI), Jakarta
2013 – 2016

TARGET CERTIFICATIONS HIGHLIGHT

- DIGDAYA Practitioner Phase — LPPI (Lembaga Pengembangan Perbankan Indonesia, 2026)
- Deploy Multi-Agent Architectures & ADK — Google (2026)
- Orchestrate Multi-agent Workflows with Gemini Enterprise — Google (2026)
- Belajar Dasar Manajemen Proyek — Dicoding (2026)
- Prompt Engineering untuk Software Developer — Dicoding (2026)
- Internet of Things (IoT) — Digital Talent Scholarship Kominfo (2019)
- + 37 additional verified credentials in AI, Cloud, Mobile & Systems.
